### Keywords:

Technology, computer, internet, graphic organizer

President of the Republic of Uzbekistan Mirziyoyev Shavkat Miromonovich When addressing the Supreme Assembly - Digital Knowledge for Success and mastering modern information technologies is necessary and expedient. This is for us allows you to take the shortest path to the ascent.

In today's fast-paced world, science and technology are also evolving rapidly is increasing. Progress is being made in every area. In particular, great changes are taking place in science. Every fan is new delivery to students using innovative pedagogical technologies is one of the basic requirements of education today.

In particular, the First President of the Republic of Uzbekistan Islam Resolution of Abduganievich Karimov No. PP 1875 of December 10, 2012. learning and learning foreign languages in our country more attention. Advanced pedagogy in foreign language teaching technologies, interactive, innovative methods, communicative-information tools are required. Teaching foreign languages in our country, pan-European assessment of knowledge and skills of foreign language teachers Developed new methods and requirements in accordance with the Framework Recommendations

(CEFR).was released. Classrooms meet these requirements and new information equipped with communicative techniques. Learning technology is education effective use of modern information technologies in the process.

Also, the introduction of modern innovative technologies in the educational process improving the quality and effectiveness of education. In particular, a foreign language one such use of information and communication technologies in research how many advantages there are. Use of technology in all aspects of learning a foreign language (reading, reading, listening and speaking) will come.

For example, to listen and understand, of course, without a computer, player, CD the process cannot be performed. Listening is the best way to learn a language is one of the important parts. The student becomes a speaker at the same time pronunciation, grammatical rules, vocabulary and its meanings need to pay attention.

It is best to teach and learn a foreign language using modern technology is one of the samador methods. When the reader uses computers in the process as well as videos, shows, dialogues, movies or cartoons in a foreign language sight and hearing; in foreign language radio and

television programs can be heard and watched; CD players are available.

Using these tools will help students learn a foreign language makes it more fun and effective.

In the process of globalization, it is hard to imagine our lives without the internet. Foreign language

the most effective use of it in the process of teaching and learning methods. Chat online with foreign speakers can do. Email writing exercise can be improved.

Introduction of modern communication technologies in the educational process purposeful and correct, effective use of them, through which the student learns a foreign language

The most important thing is to increase the interest and effectiveness of the lesson

Through the use of innovative educational technologies opportunity arises and demand increases.

There are many types of innovative educational technologies available today

There. If they are used extensively and in a variety of ways to illuminate a topic in the classroom,

the course will be more productive and students will be able to attend classes interest also increases. Different roles in foreign language teaching, use of action games and interest in both lessons and language learning leads to an increase. Students work in pairs or small groups and helping students communicate with others will give.

The use of graphic organizers in the educational process in the coverage of the topic, it is one of the most important means of communicating to students. Subject it is also possible to use several different graphic organizers in lighting. Foreign language use graphic organizers to teach new words on a topic; it is expedient to explain the grammatical rules. Through graphic organizers they are also easier to remember. In the process of teaching a foreign language the efficiency of using different tables is also high. Using tables in the learning process, students learn a specific grammatical rule, e.g. can use tenses to form sentences and add new words.

At a time when there is a great need to learn a foreign language, in the process of learning effective from modern information technologies, innovative educational technologies use makes this process more efficient. Innovative education the effectiveness of technologies is clear and effective in their learning process when used.
