Internal affairs

It is known that Uzbekistan is one of the countries that has had its rich history and culture since ancient times. Our diverse cultural heritage and rare publications of special historical value have become important in the transmission of our national history and culture. Libraries play a special role in preserving these historical sources and delivering them to future generations. In particular, the concept of organizing spiritual and educational work in internal affairs bodies, approved by the decision of the President of the Republic of Uzbekistan No. PD-5050 dated April 2, 2021, and training the employees of internal affairs bodies to serve the interests of the state and the people under any circumstances, to national values to educate as a loyal and well-rounded person and in the internal affairs bodies approved by the Order of the Minister of Internal Affairs of the Republic of Uzbekistan No. 79 of March 25, 2022 [1] "Serving the homeland and the people with loyalty is our highest duty!" under the

motto "In order to ensure the implementation of the decree on the program of measures for conducting the month of spirituality, the services of libraries in the republic deserve special recognition in the implementation of large-scale work among the employees of the Ministry of Internal Affairs of the Republic of Uzbekistan . In the implementation of these measures, as an appendix to the order of the Minister of Internal Affairs of the Republic of Uzbekistan No. 400 dated October 21, 2021[2], the decision on getting to know 39 types of literature recommended for the development of reading culture among the employees of the Ministry of Internal Affairs it can be said that ensuring its execution has become important. In connection with the execution of this decision, the work carried out by the departments of the Ministry of Internal Affairs of Fergana region and the district Ministry of Internal Affairs was able to give a positive result among the representatives of the sector. In particular, this year alone, a lot of work was

done to improve the culture of reading among the employees of the Ministry of Internal Affairs of Fergana region. In particular, at the initiative of the head of the regional department, the image of the spiritual room of the MIA of Fergana region was revised and the necessary literature was brought there. Also, all conditions were provided in the room for employees to spend their free time meaningfully and receive spiritual nourishment [3].

In cooperation with the Ferghana Information Library Center named after Ahmad al-Farghani, the MIA of Ferghana region held various events and intellectual exchanges in order to ensure the implementation of the above decisions. The participants of this event were certainly representatives of the MIA branch, while the organizers of the event were library employees [4]. The holding of these events was able to give its effective results in such matters as helping the representatives of the field to fundamentally grow their spirituality and worldview in the implementation of their difficult and complex tasks. For this reason, instructions were given and carried out in connection with the organization of these events in the district and city MIA departments of Fergana region. In particular, on February 3, 2022, an "Intellectual ring" was organized among the employees of the MIA of Kokan city at the Information Library Center of Kokan city. In addition, 16 employees from the Department of Internal Affairs of Kokan city died in connection with the month of reading held between organizations located at Turon 7, Kokan city, on April 9, 2022, at the Information Library Center of Kokan city. On the occasion of the 686th anniversary of the birth of Amir Temur on April 9, Zakovat intellectual ring was held on the theme "Great commander and statesman". At the end of the event, the participants had a closer look at the book exhibition called "The great leader and statesman" prepared by the subscription staff. The work of Amir Temur, his life, Tuzuklari and 11 pieces of literature related to this topic were placed in the exhibition. On April 13, 2022, the library participated in the "Kiton Khan Week" with

book exhibitions at the MIA post patrol and JTSB Patrol-Post service battalion of Fergana region. The exhibition used Uzbek and world literature [5].

Such events are being organized in the district MIA departments of the MIA of Fergana region. In particular, it can be seen that extensive work is being done on the development of reading among the employees of the MIA of Altariq, Rishton, Uchko'prik, Buvayda, Furqat, and Beshariq districts. In particular, on April 7, 2022, an intellectual game "Zakovat" was held in the Central Library of Furqat district between the "Courage" and "Shield" teams from Furqat district MIA employees and "Vatanparvar" teams from Furqat district vocational school teachers. the "Vatanparvar" team took the proud 1st place in the competition, and was awarded with an honorary label of the head of the MIA of Furqat district and expensive art books. In the Central Library of Furqat District, on April 8 of this year, the "Smart Reader" screening competition was held among Furqat District MIA employees. At the event, Senior Inspector of the Organizational Analysis Group of Furqat District MIA JXX HPB, Senior Lieutenant U.Kenjaev, the proud 1st took the place and was awarded with the Honorary label of the head of the Ministry of Internal Affairs of Furqat district and expensive art books. Also, on April 13 of this year, the head of Furqat District Spirituality and Enlightenment Center, T. Nishanov, introduced the book "New Development Strategy of Uzbekistan" in the Furqat district MIA, and recommended it to the employees for practical reading. and in the presence of D. Ghafarova, editor-in-chief of the newspaper "Navbakhor" of Furqat district, there was an interview about the publication of an article by MIA employees in the Navbakhor newspaper, as well as the appearance of tenaris [6].

On April 28 of this year, Beshariq district "Ziya maskani" Beshariq district MIA staff visited and got acquainted with 39 types of books recommended for the employees of internal affairs bodies, and books were purchased for employees to read [7]. In conclusion, it should be said that today it is

necessary to raise spirituality in the republic, to study the cultural and scientific heritage, and above all to raise the culture of reading. the data confirms. 39 types of Uzbek and world literature recommended by the officials to the representatives of Sokha were initially set as a necessary task, but today it is showing its results. Based on the above, it is worth showing the experience of the Department of Internal Affairs of the Republic of Uzbekistan in improving the reading culture to the employees of all organizations and institutions in order to improve morale in the republic. As a suggestion, it should be added that, based on the field of each organization and institution in the republic, it would be appropriate for the leading organization to determine the necessary literature and to control its implementation. If we can return our nation, which is already falling under the roof of rapidly developing information and communication technologies, to the abode of intellectuals that can provide real knowledge.
