ABSTRACT

This article reflects on the work of general education schools in Jizzakh region.

Keywords:

Education, quality indicators, innovative news, school, teacher.

Education is knowledge give, qualification and skills harvest to do process, person to life and to labor of preparation main tool. Education in the process information is taken and education done is increased. Education narrow in a sense teaching concept means. But it is only different type study in their countries teaching process not family, work release and another in the fields information to give process too means.

Like this it is education give, him quality indicators increase for now very growths done is increasing. An example for in one language was pay attention How weight greatness yourself seeing you stand English is worldwide of the language devotees percentage increasing more and more is leaving What for because this the language reading, learning for so much many opportunities appear is happening to everyone obviously. These Created let's see with the laws will be.

Uzbekistan Republic President's decree of May 11, 2022 "In 2022-2026, the people education development according to national program confirmation Decree No. PF-134 performance provide in order to:

1. General medium education in institutions spiritual and educational affairs efficiency increase and this about school director, parents and neighborhood chairmen responsibility strengthen in order to People education Ministry interested ministry and offices with together from September 1, 2022 of the republic all district (city). in the section exemplary schools rating (next in places-rating). and announcement by doing let's go

Note that:

Rating within each study year At the end of common medium education in institutions take going spiritual and educational affairs status People education Ministry by approved criteria according to evaluate will go;

Common medium education in institutions take going spiritual and educational affairs situation evaluation and rating conduct for district (city) people education departments bosses under the leadership of special commissions is created;

School students " Patriotism" lessons for and 2 days in landfills military the field training transfer and them riders to their schools attraction to do measures let's see, military part officers, sergeants and Armed Forces veterans with the participation of "Motherland peace all of us responsible!", "Motherland freedom is happiness pledge!", "To the motherland service is excellent on the topics of "virtue". circle conversations organize let him do it;

Of students architectural and historical monuments, culture institutions and protection to be done natural to regions visit organize;

Of students interests, demand and from desires come sports competitions, concerts performances and art works exhibitions let it pass;

Great of our ancestors scientific and cultural their heritage instructive life the way and the world civilization to develop added contributions about promotion their work take let's go, great scholars born to the dates dedicated scientific weekly, seminar and conventions organize let

Vital examples based on of parents children in education role, obligation and responsibility about explanation their work take let them go interested and to worry putting issues according to open communications and educational seminars organize let it

Neighborhood and the luminaries support Ministry (T. Khudaybergenov) of

Karakalpakstan Republic Ministers Council, regions, Tashkent city and district (city) governments and of citizens himself himself manage organs with together each in the quarter exemplary of students their parents encourage, thank them letter". submit and gifts present achievement as well as activities public information in the means wide lighting practice to the road let it.

3. People education Ministry (B. Saidov):

Until August 1, 2022 common medium education in the institution internal order and manners the rules again seeing come out and them school and parent's upbringing place and their responsibility education and education in the process participation and obligations define;

Common medium education in the institution internal order and manners the rules his own official website and "my.maktab.uz" information in the system let it be placed;

From September 1, 2022, the school students parents as "my.maktab.uz" information system through common medium education of the institution internal order and manners rules with by introducing let's go

Ministers Court within a month General medium education in institutions spiritual and educational and educational affairs efficiency increase concept confirm.

4. General medium education institutions information and communication technologies infrastructure improvement, computer class rooms modern techniques and another tools with provide for:

People education Ministry (B. Saidov) Finance Ministry (T. Ishmetov), Karakalpakstan Republic Ministers Council, regions and Tashkent city administrations with have come until September 1, 2022 in schools in 2023-2024 meaning outdated computer classes update according to program Ministers To the court confirmation for let him enter;

Finance Ministry (T. Ishmetov), Karakalpakstan Republic Ministers Council, regions and Tashkent city administrations in schools in 2023-2024 meaning outdated computer classes update according to program financing for Uzbekistan Republic republic budget 200 billion soums from the account, local

budgets 200 billion soums from the account amount funds separation provide;

Information technologies and communications development Ministry (Sh. Shermatov) People education Ministry (B. Saidov), Karakalpakstan Republic Ministers Council, regions and Tashkent city administrations with together 2022/2023 academic year from the year from up to 400 people student has been common medium education Internet speed in institutions at least 40 Mbps, readers out of 400 people high at least 100 Mbit/s provide.

Such of laws performance everyone in the regions done is it increasing? Let's do it the answer only one Jizzakh city in the example seeing let's go.

Worker group by Jizzakh in the region take going affairs about some aspects attention looking at let's go For now until in the region general education in schools " Family-neighborhood-school-university study countries" cooperation model application to achieve, education quality increase, 5 important initiative directions students to circles attraction reach and in society teachers position to increase directed events transfer to work big attention aimed at true.

In particular, ministry and offices, higher education institution leaders and professors content found Republic worker group by "Whole strength people from within let's go, hug open to schools "let's go" slogan under 515 general education in the region minister for the 26th time in his school (minister deputy rector's hours, 42nd rector's (vice-rector 's) hours, higher education institutions rectors, vice-rector and professors by 209 times majors according to skill classes, 10-11 grade students with the 324th selection according to meetings, 39 governors (deputy governors) hour, 42nd time entrepreneur and bankers meeting, 53 cultural and sporting events held and this 14434 people in events pedagogues, 125,344 people students cover received. Rest days of the region all city, district "Ustoz" centers and coaches avenues, recreation gardens, culture in the palaces teachers and their family members for cultural, sports events organize done.

Education quality increase, general education schools to their teachers systematic practical and Methodical help display in order to in the region of districts (cities). each in one of the fields of science (exactly sciences, natural sciences and social and humanitarian). support schools defined, sciences in the composition categorized without in the region Jizzakh state pedagogy Institute, Jizzakh state Polytechnic Institute, Uzbekistan National university Jizzakh branch, region people education employees again preparation and their qualification increase professor- teachers of the center by this support in schools trainer-moderators preparation mechanism to the road was placed.

This worker group member as Ministers Court in the presence of Education quality control to do state inspection chief Ulugbek Tashkenbayev in the region general education institutions activity with getting to know their teachers professional potential and skills increase through education quality raise in order to pedagogues, students and students with met. Jizzakh province people education employees again preparation and their qualification increase territorial in the center qualification increasing pedagogue personnel with mutual in communication today's in the day in our republic education in the field take going reforms, pedagogues qualified competence increase, to the 2021 PISA studies preparation to see and TIMSS, PIRLS international programs about data given. In conversation of teachers international studies about knowledge levels were also determined. Also a worker group Jizzakh state pedagogy students at the institute. with meetings organize done. At the meeting of students Demand and suggestions, education process how organize reach about offer and comments was heard. Education inspection chief Ulugbek Tashkenbayev by to the 2021 PISA studies preparation to see in it Jizzakh state pedagogy Institute, Jizzakh region people education employees again preparation and their qualification increase territorial center, Jizzakh region people education departments mutual cooperation to the road to put according to road map work exit assignment given. In it territorial qualification increase center, JDPIs

mathematics, physics, mother language and literature, geography, biology of sciences knowledgeable from international PISA studies informed from teachers worker groups formed region scale general education school to their teachers practical seminars organize reach duties loaded. Studies in the process in the region general education in their schools education to quality negative influence doer the presence of factors was determined and belongs to ministry and offices by region people education in the system education quality new to the stage to raise directed Road map work released.

Summary instead that's it to say perhaps relief how much as it is created. Of this prevention get three times stronger goes. So is being created opportunities for us realize enough without, them tight hold, teachers help ila, high to the finish line rising Borean. Because us nothing stop don't take it.
